Editor's Note

Dear Readers,

Every New Year brings the cricket fever back with a new bang. With our beloved event - 'Ace Cup' just round the corner, we are gearing up with the preparations. And this time it's gonna be big - exclusively for our JTribes. With 21 teams playing this year, we have the event happening from 20 to 22 February 2026. The most important highlight being the introduction of Women teams, we would like to reinforce the idea of Nari Shakti.

At Jhamtani, we believe in keeping and delivering our promises - on time. As we are inching towards the financial year end with this being the last quarter, we have a big project launch loading at Thergaon in PCMC. Being centrally located in PCMC and very well connected, Thergaon is a promising location. All our teams are working hard to ensure a timely launch in this quarter. We have always believed that delivering a project is more important than launching a new one. With Nandan Ace, Ace Villas and Ace Abode (C and E wings) being close to completion, our Quality and HAS teams are on their toes, checking the projects thoroughly and ensuring a high quality product to be delivered to our customers.

January also marked a good month for us in Sales as we had participated in the 'CREDAI Property Expo' held at Agricultural college ground. We had

a footfall of 2000+ customers in those 3 days of Expo, with people appreciating our stall and our projects resulting in we being recognised with the 'Popular Choice Award' by CREDAI Pune. We also had the privilege to host the D2C (Developers to Channel Partners) Meet with over 1200 channel partners in attendance. Our MD, Mr Anup Jhamtani, presented the company's vision and roadmap for the Channel Partners.

As we charge ahead, our sights are set beyond projects: on forging communities and ironclad stakeholder bonds. We're uniting teams, partners, and customers through bold initiatives that don't just build developments—they spark thriving ecosystems where everyone wins. The forthcoming project pipeline holds substantial promise, and through unwavering collaboration across teams and partners, we anticipate achieving significant new milestones in the months ahead.

Regards,

Meenakshi Jhamtani

Executive Director

CREDAI D2C Conclave: Conversations That Are Shaping Real Estate

There's something unmistakably powerful about conversations that happen face-to-face and the CREDAI D2C Conclave was a perfect reminder of that.

As my first industry event with Jhamtani, the experience was both exciting and grounding. From the very start, what stood out to me wasn't just the scale of the expo or the 1200 + partners it hosted, it was the intent behind every interaction. This wasn't an event driven by noise or numbers, but by direct connection between developers & channel partners.

Jhamtani's presence as an esteemed sponsor felt purposeful. Working closely with the team on ground, I experienced first-hand the culture of collaboration, clarity and calm confidence that defines the organisation. The team focused on conversations over conversions, listening before responding, and creating a space where people felt comfortable engaging.

A key highlight was the leadership dialogue, including a presentation by Mr. Anup Jhamtani, Managing Director, Jhamtani Group, who

addressed developers and channel partners on the evolving real estate landscape and about the Brand's vision. The discussions and fire-side chats further emphasised why strong developer-channel partner relationships are critical for building trust in today's market.

For me, the D2C Conclave was more than just an industry event. It became a meaningful first experience with the Jhamtani team, one that offered learning, alignment, and a deeper understanding of how thoughtful engagement builds lasting trust.

Working closely with the team on ground, getting to know their approach, their clarity in communication, and their ease with people made the experience even more enriching. It was a pulse check on where the industry is headed, and a strong, affirming start to my journey with Jhamtani.

Mr. Yash Chaturvedi
GM - Sourcing

Inside CREDAI Expo: My First Experience representing Jhamtani

Attending the CREDAI Expo for the first time was a truly exciting and memorable experience for me. It was not just an exhibition, but a great platform where the real estate industry comes together to share ideas, innovations, and future opportunities. Representing Jhamtani at such a prestigious event made me feel proud and motivated, and it gave me valuable learning that I will always remember.

From the moment I entered the expo venue, I could feel the energy and professionalism in the environment. There were many reputed builders, developers, investors, and real estate professionals present under one roof. The expo was well-organized and displayed a wide range of projects, new technologies, construction materials, and modern real estate solutions.

This expo helped me understand customer expectations more clearly. It also gave me the confidence to speak about our company's strengths, such as our commitment to quality construction, timely delivery, customer

satisfaction, and modern lifestyle developments.

As the industry evolves, platforms like the CREDAI Expo play a crucial role in shaping meaningful dialogue, not just between brands and buyers, but within the real estate ecosystem itself.

One of the most affirming moments of the expo was Jhamtani being honoured with the People's Choice Award. When people choose you, it means everything. Our team focused on conversations, not conversions. We asked questions before offering answers. We listened closely, explained transparently, and stayed present.

I am thankful to the whole team at Jhamtani and this experience will always remain special for me as it marked an important step in my career journey.

Mr. Chirag Purohit
Sales Executive

CORE HIGHLIGHTS

Ace Cup Season 8 marks the beginning of a powerful new chapter.

A new season, bigger energy, and for the first time,
Women's Teams take the field alongside our champions.
Here's to a season of skill, spirit, and equality.

Tournament Dates:
20th, 21st, 22nd, 28th Feb & 1st Mar

RISING STARS

Calling all kids!

When Art Met Community: A Weekend of Smiles, Cartoons & Stories

It started with curiosity. Tiny hands tugging at pencils and customised drawing kits. We did not only host a workshop at our societies, but hosted a feeling. At Ace Almighty, Ace Abode and Ace Aurum 3, the Jhamtani community came together for a Caricature Workshop that reminded us why community is at the heart of everything we do.

Children as young as 2 years old to confident 14-year-olds sat side by side, drawing cartoons that reflected their worlds, superheroes with oversized smiles, Santa Claus and much more!

Parents watched, laughed, clicked photos, and cheered quietly from the sidelines. Conversations sparked. Neighbours who hadn't met before shared moments. This wasn't just a workshop, it was community bonding.

At Jhamtani, we often talk about J-Tribe, and this weekend brought that idea to life.

J-Tribe isn't just a term. It's our people. It's the collective spirit of residents, families, children, teams and partners who grow together, celebrate together, and create spaces that feel alive. It's the belief that homes are more than four walls, they are ecosystems of connection.

As the session progressed, cartoons turned into keepsakes, smiles turned into applause, and a few lucky participants walked away with prizes, but everyone left with a memory and all kids with chocolates!

Moments like these reaffirm why we do what we do. From a personal lens, having worked across multiple loyalty and engagement initiatives, what stood out to me here was the community spirit! And that's powerful. It reminded me that the most meaningful loyalty isn't built through grand gestures, but through small, honest moments that people choose to be part of.

Because real engagement isn't loud. It's thoughtful. Because leadership today isn't about instruction, it's about inclusion. Because the strongest communities are built when people feel they belong.

Strategic Importance of Thergaon for New Real Estate Projects — Pune's Emerging Growth Node

Pune's Emerging Growth Node

Thergaon, located within the Pimpri-Chinchwad belt of Pune, has rapidly transitioned from a peripheral suburb into a high-potential real estate micro-market. Its proximity to key employment hubs, improving infrastructure, and relative affordability position it as a strategic destination for new residential and mixed-use developments, appealing to both end-users and investors.

1. Connectivity & Infrastructure: The Growth Engine

Thergaon's real estate momentum is anchored in strong physical and social infrastructure:

Road Connectivity: Seamless access to NH-48, Mumbai-Pune Expressway, and arterial roads connecting Wakad, Hinjewadi, Pimpri, and central Pune ensures reduced commute times and enhanced daily convenience.

Public Transport: Close proximity to Pimpri, Akurdi, and Chinchwad railway stations, PMPML bus routes, auto services, and upcoming metro corridors improves multi-modal accessibility.

Employment Hubs: Immediate access to Hinjewadi IT Park and Pimpri-Chinchwad industrial zones makes Thergaon highly attractive to working professionals.

These factors form a strong foundation for sustained residential demand and growing commercial interest.

2. Real Estate Market Performance: Appreciation & Liquidity

Price Trends

- Apartment prices in Thergaon currently range between ₹7,400 – ₹11,650 per sq.ft, with consistent quarterly growth.

- Year-on-year appreciation of ~15–16% has been recorded, with certain pockets witnessing 30%+ growth, indicating strong micro-market traction.
- These trends align with Pune's broader residential upswing, supported by record property registrations and buyer confidence.

Sales Activity

- Over 500 active listings and healthy resale inventory point to a liquid market.
- Multiple reputed developers have ongoing and upcoming projects, some achieving 80%+ sales, reinforcing developer confidence and buyer demand.

3. Demand Drivers: Why Buyers & Investors Choose Thergaon

Employment Proximity: Close to IT, industrial, educational, healthcare, and retail hubs, making it suitable for families and professionals.

Livability: Planned residential layouts, organised development, and access to daily conveniences improve lifestyle appeal.

Value Advantage: Compared to saturated markets like central Pune and mature suburbs, Thergaon offers better entry pricing with strong appreciation upside, attracting both end-users and long-term investors.

4. Competitive Advantage for New Project Launches

A. Early Mover Opportunity

With Wakad and Hinjewadi nearing saturation, Thergaon represents the next residential growth wave — allowing developers to benefit from early pricing and strong absorption.

B. Flexible Product Positioning

The locality supports:

- Mid-segment and affordable luxury residential
- Premium apartments
- Select commercial and mixed-use formats

This enables diversified offerings catering to multiple buyer profiles.

C. Capital Appreciation Potential

Infrastructure-led growth and sustained employment demand position Thergaon for **above-average capital appreciation** over the medium to long term.

5. Strategic Recommendations for Developers

1 Connectivity-Led Positioning: Highlight ease of commute and access to highways, IT hubs, and

transit nodes.

2 Multi-Segment Products: Focus on 2 & 3 BHK homes and compact investment-friendly units.

3 Value-Driven Pricing: Maintain competitive pricing versus saturated corridors to ensure faster sales velocity.

4 Target Working Professionals: Align messaging with IT and industrial workforce needs — short commute, work-life balance.

5 Lifestyle Differentiation: Invest in strong in-project amenities and community spaces to attract long-term residents.

Conclusion

Thergaon has emerged as one of Pune's most strategically significant growth corridors for real estate development. Strong connectivity, proximity to employment hubs, rising price trends, and active buyer demand make it a compelling location for new launches. Well-planned, competitively priced projects in Thergaon are likely to achieve faster inventory absorption, strong sales traction, and superior capital appreciation, making the locality a smart bet for developers and investors alike.

From Plans to Ground Reality

A comprehensive site visit was conducted across multiple ongoing Jhamtani Group projects to gain first-hand insight into on-ground progress, project scale, and liaisoning-related challenges at different stages of development.

The visit was undertaken by the liaisoning team comprising **Mr. Vijay Shinde** (Liaisoning Officer), **Mr. Suraj Shinde** (Liaisoning Officer), **Ms. Mudita Sonawane** (Liaisoning Assistant), along with **Ar. Supriya Sasne**. The team visited the following project sites and their respective sales offices:

- **Ace Villas** • **Jhamtani Bizcore**
- **Jhamtani Elevate** • **Ace Abundance**

“Every site tells a different story—understanding it on ground helps align permissions, planning, and execution seamlessly.”

Each project was observed at a different stage of construction. **Ace Abundance and Ace Villa (XO Series projects)** reflected a distinct planning philosophy, while Jhamtani Bizcore and Jhamtani Elevate showcased the scale and complexities typical of commercial developments.

Architects played a key role in explaining the sites using **approved sanction plans**, enabling the team to clearly visualize layouts, building footprints, access points, and development boundaries—effectively connecting drawings with on-ground realities.

“Sanction plans act as a bridge between drawings and reality, enabling better coordination and clarity on site.”

The visit enhanced the team’s understanding of site conditions, construction progress, and project scale, while also highlighting **site-specific liaisoning challenges**.

Key discussions focused on statutory permissions and approvals, including:

- **Royalty permissions**
- **Tree cutting approvals**
- **Dewatering and sump permissions**

These discussions reinforced the importance of **timely applications, accurate documentation, and proactive coordination** with authorities to avoid delays.

“Effective liaisoning is not just about approvals—it is about synchronizing authorities, timelines, and site realities.”

Being physically present on site strengthened visualization of approvals and drawings, while instilling a deeper sense of responsibility. The team experienced first-hand how liaisoning decisions directly impact construction progress and project timelines.

Ar. Sneha Nenwani
Architect - Liaisoning

Cheers to Your Good Health & Happiness!
